## Eclectic Nostalgia

at  
Gallery of Local Art

Opening/Reception Friday, December 4th from 6:00pm until 8:00pm

*nostalgia (noun): "sentimental recollection; a mixed feeling of happiness, sadness, and longing when recalling a person, place or event from the past, or the past in general"*

- Encarta Dictionary, 2009

"Eclectic Nostalgia" is a series of acrylic paintings of various size, shape and subject. Each subject is a representation of another time, a different place or a happy memory from my life. Many of my favorite memories are related to food, travel and growing up in New England. Through the use of color, value and texture, each painting attempts to bring the past to life; and if one of them brings a smile to your face or evokes a fond memory – then I have succeeded.

Pat's work will be featured December 4 through December 30
